Susan Grant, Architect

Chicago, Illinois

Susan Grant offers full-service multi-disciplinary Architectural and Interior Design services for commercial and residential clients nationwide.

Susan Grant has a strong history of both design and technical building excellence. She has served clients who are concerned about the aesthetic, economic and technical advantages that superior design and engineering bring to the design and building process. *We offer solutions and services which address the project criteria and add investment value.*

A native of Chicago, Susan has a Bachelor of Arts degree from Dartmouth College (Hanover, NH). At Dartmouth, she majored in Studio Art (sculpture and architecture), and then went on to earn a Masters in Architecture from The University of California, Berkeley.

After graduate school, Susan continued her architecture career exploring issues surrounding urban planning, adaptive reuse, redevelopment and affordable housing. Soon after, she joined the San Francisco Housing Authority as a staff architect.

In 1988, she returned to Chicago to continue working on projects which focused on mixed-use redevelopment of depressed urban areas. Later, she joined Chicago based Holabird & Root Architects where she worked as a designer on the renovation of the State of Illinois Building, and its Supreme and Appellate Courts, in addition to many other commercial design projects.

Other project and design experience includes work for Chicago based Lettuce Entertain You Enterprises (various restaurants), Motorola Corp., Discovery Zone, Eagle Ridge Resort and Casino, Kraft Foods, Home Run Inn Pizza, TGI Friday's, California Pizza Kitchen (various U.S. locations), Fruit of the Loom, WGN-TV Studios (Chicago), Walgreens Inc. (various new national locales), various Public Art Projects and many custom residential design projects.

Susan Grant is currently writing a book on the Design and Construction process (geared toward residential, corporate and end users). She is a licensed Architect & Certified Energy Professional and is based in Chicago.
